Experience

SuperWIT
Software Engineer
February 2024 - Present (7 months)
United States

I specialize in building and maintaining websites and web applications for our
diverse clientele using Next.js and AWS for hosting. My role involves:

Developing high-quality, responsive websites and applications tailored to client
specifications.
Hosting and managing websites on AWS, ensuring optimal performance and
security.
Regularly meeting with clients to understand their needs and provide updates
on project progress.
Implementing client feedback and requests to continuously enhance their
online presence.
Collaborating with a dynamic team to deliver innovative and effective web
solutions.
My commitment to client satisfaction and technical excellence allows me to
deliver outstanding results that drive business success.

Paceflow
Full Stack Web Developer
October 2023 - December 2023 (3 months)
Remote

Pace flow is a web application that is used to monitor the remote work force.
It contains latest tracking systems through which managers and team leaders
can track what the workers are doing.
This app also provides anylitics of the work done by the team as well as
individuals
